Professional Profile

A highly organised data scientist with experience in web programming and cyber security with over 2 years experience. Bachelor of applied mathematics and informatics with good academic record. IT enthusiast with interest to data science and cyber security. Now I study in Skoltech on data science track where I participate in the researches of the ADASE group.

Education

Skolkovo Institute of Science and Technology

Msc. Student in Data Science
2019 - now, Russia, Skolkovo (Moscow)

Mordovian State University

B.S. of Science in Applied Mathematics and Information Technologies
2014 - 2018, Russia, Saransk

Professional Experience

Student / ADASE group
October 2019 -
Academic research in ML and DL.

Wallarm / Data Scientist
March 2018 -
ML and DL research and development in the cyber security area.

Wallarm / Data Scientist intern
February 2017 - March 2018
ML and DL research and development in the cyber security area.

Freelance
2014 -February 2017
Ruby on Rails web development.

Technical Skills

Data Science:

Deep Learning, Machine Learning, Statistics

Tools:

TensorFlow, PyTorch, Scikit Learn, Pandas, NumPy and SciPy, Docker, Spark, Docker, gRPC, MongoDB

Languages:

Python, SQL, Ruby, C/C++, JavaScript

Other:

OWASP TOP 10, ANTLR

Linguistic Skills

English - Intermediate

Russian - Native
